

# SOFT WALK

COMMUNICATE ON INDOOR AND OUTDOOR FLOORS IN A BLINK

The SoftWalk flooring can be applied as a carpet and is reusable. It can be used indoors as well as outdoors. The material - is made of a vinyl soft foam. Antibacterial coating prevents the growth of unwanted bacteria and ensures hygiene for application on humid floor. Thanks to the special profile the material can be cleaned easily and the free water drain on the reverse side is given. The SoftWalk adapts simply to all surfaces and can smoothly be installed. SoftWalk is suitable as a re-usable advertising product for fairs or events and can be used daily changing applications.

It attracts attention, gives you a "Soft Walk" feeling, ensures greater safety and simply looks good. When you apply outdoor you may use double sided tapes when windy conditions to keep it on the ground. The product is able to float on water. Lifetime can be extended by covering the surface with liquid laminate. The product can be printed on both sides.

## Uses

- Individualised / customised safety applications
- Directional signage
- low light corporate branding
- Eye-catching floor advertising especially in the winter-time
- Safety markings
- Stairs
- On boats

## Features & Benefits

- Photo luminescent material

## Durability

The short term life depends on the proper use as well as on the mechanical influences.

## Storage

SoftWalk has a shelf life of 12 month after purchasing the material. It needs to be stored in conditions (+15 till + 24°C at humidity on between 40 and 70%rh).

## Warranty

The product has been used in many places under all possible conditions and has proven its reliability and performance. Since the conditions where the product is going to be applied or used all product warranty automatically ends as soon as the product is applied on to any surface.

## Printing method

The material can be printed coloured with UV curable inks. On printers with Mesh printing capabilities. Material without liner.

## Waste handling

Used material and production waste can be handled as "Plastic" waste.

- Liquid varnish may extend life cycle

## Technical information

Size:	Width: 1.53 m
Base material:	100% polyethylene
Covering:	vinyl soft foam
Total weight	950 g/m <sup>2</sup> ± 5%
Material thickness	300 Micron ± 15%
Flame resistance	B1 (DIN 4201)
Slip-resistance	very good
	Free of heavy metal, formaldehyde and CFC
